A SIMPLE BEGINNING

Every big story is made up of little moments. June Bug & Honey Bees is an invitation to notice them—and keep them together in one journal or composition book. It doesn't have to be perfect. It just has to be yours.

LET'S BEGIN

1

Choose One Ordinary Detail

Think of something from your day or your life that you don't want to forget. It can be simple. *A walk. A meal. A sound. A person. A place.*

2

Write a Few Lines

Jot down what you noticed, what it meant to you, or why you want to remember it. *A sentence or two is enough.*

3

Add Something (Optional)

Include a photograph, a small keepsake, a short list, a drawing, or a piece of decorated paper.

4

Make It Yours

There's no right or wrong way. Use what you have. Add a little decoration if you like. Keep it real.
